

Environmental and Sustainability policy statement

Real Arts Workshops (RAW) is committed to leading the industry in minimising the impact of its activities on the environment.

The key points of its strategy to achieve this are:

- Minimise waste by evaluating operations and ensuring they are as efficient as possible.
- Actively promote recycling both internally and amongst its workshop customers and suppliers.
- Actively engage with environmental based projects which in particular raise awareness and teach young people about the environment and our responsibilities.
- Use recycled items in the arts projects that we deliver and actively promote them on our social media channels.
- Use our work to highlight the effects of single use plastics, and the importance of recycling.
- Encourage young people to think about these issues in our workshops.
- Use our own story : 'Joseph The Useful Cardboard Box' to promote the idea of cardboard recycling.
- Source materials which minimise the environmental impact of both production and distribution.
